2022 ILCA North American Championships

Question for Officials

Date: 2022-06-30

Question No: 02
Question For: Technical Committee

Question:

I'm driving in from Toronto this morning and aiming to arrive in Kingston by 10am. I am part of the A-D time frame for measurement this morning. I might not be able to unload my boat and equipment in time for measurement. Is it possible I can do the measurement later in the day.
Thanks,
Mats

Answer:

Yes. See David Sprague at Measurement. We will tentatively plan you for about 11:30. David Sprague
