**Request No: 04**

**Boat: FX - NED 65 - Kekoa - Odile Van Aanholt**

---

**Request:**

**Old Equipment:**

Gennaker . Color: Black. Serial number : 006090

**New Equipment:**

- Gennaker. Color: Blue. Serial number: 006077

**Reason:**

During the first race of the regatta our gennaker broke in the very top close to where you attach it to the halyard in a downwind leg . The gennaker is completely in 2 pieces so unsailable. We had a dnf. Then changed the gennaker to the new one and could race again in race 2 and 3 . Since the old gennaker is unsailable we request to sail with the new one for the rest of the regatta.  
Thanks In advance and kind regards, Odile
