

Canada Summer Games 2025

Equipment Substitution Request

Received: 2025-08-13 21:51 NDT

Request No: 05

Boat: 29er Women - 29er Femmes - MB - CAN MB2F - Megan Burns

Request:

Old Equipment:

The trapeze wire's puck is simply static and just attached to the cleat.

New Equipment:

Spectra line will be added to make the puck adjustable.

Reason:

Puck is currently too high on the trapeze wire, so we would like to add line to make the puck height adjustable.

Response: Approved

Addition of line from wire to pulley system approved subject to final inspection before racing.
