

# Les Voiles de Saint-Tropez 2025

## Equipment Substitution Request

Received: 2025-09-30 10:27 CEST

---

**Request No: 01**

**Boat: IR4 - MODERNE - GER7678 - KJU - WIRBEL Klaus**

---

**Request:**

**Old Equipment:**

Darglow Featherstream 8897 3-Bladed Feathering Propeller, Diameter: 20

**New Equipment:**

Darglow Featherstream 8897 3-Bladed Feathering Propeller, Diameter: 20

**Reason:**

[Safety Critical] We have an issue with our feathering propeller. It does not produce consistent thrust in forwards gear, hence we would like to replace the propeller with an identical, new propeller from the same manufacturer. The details will be provided in the following fields. We intend to continue racing given that safe conditions allow.

Changing the propeller will require hauling out the vessel at Monaco Marine in Cogolin, with a potential crane slot on Wednesday (01.10.2025) in the afternoon after racing concludes.

If the request is approved, we would like to proceed with the necessary preparations and fix the haul-out time. In case of any questions and equipment inspections, you can reach us the following ways:

Klaus Wirbel (Owner / Skipper): +49 151 55121500

Julius Wirbel (Tactician / Boat Captain): +49 151 20703285

---

**Response: Approved**

Propeller change with same equipment and haul-out in Cogolin tomorrow is approved, send me the the time schedule of haul-out.
