Notice:

The start will be upwind. If the first mark is not already windward, RC may place a mark to windward. This mark, in any case, shall be rounded before rounding the first mark of the selected course. The laying of the offset mark will be signaled by the RC displaying the code flag "DELTA" with a red flag to indicate that the mark should be lee to port or a green flag to indicate that the mark should be lee to starboard and showing the approximate compass course before or together with the warning signal.
