

2021 ILCA 4.7 Youth World Championships

Notice to Competitors

Number: 04

Source: Technical Committee

Venue: Dun Laoghaire, Ireland

Published: 05 Aug 17:44

Notice:

It is mandatory that all sailors must go through measurement/inspection and that all equipment that you will use is inspected. At the end of it, you will sign your form by certifying that you will not change anything without the permission of the regatta measurer. To change equipment, you need to fill a form, bring the damaged equipment, and obtain the written approval from the regatta measurer. Failure to do so will result in a protest being lodged that can end in a DSQ or DNE.

How the inspection works:

Measurement will take place in the tent situated near to the entrance to the Carlisle Pier boat park. Please join the queue with your boat at the measurement tent no sooner than 10 mins before your booked time.

- In the Queue, do not skip places and respect the other sailors. Misbehavior will not be accepted. Keep in mind that all the people involved in the measurement are all volunteers and will try their best to make the championship a success and that you enjoy the event.
- Your boat must be clean, remove all items that are not required for measurement; examples are extra mast sections and extra sails but also sail and foil bags. All these unnecessary items lead to mistakes (e.g., measured wrong sail) and cause delays. Prepare to put all equipment on the deck of your boat, this will save a lot of time.
- Sailors must come with the boat rig with the bottom section in position and all control lines in position(including the mast retention line)
- Boat must be presented with only the equipment who will be use at the worlds.
- All equipment will be stamped, numbered, and signed. Be careful at the inspection that nothing is forgotten
- **Your pre- Registration Pack will be available to collect from the measurement tent PRIOR TO YOUR MEASUREMENT TIME. Please check that your name, sex, country, and sail number are correct. You are required to add the name of your boat builder, make/model of your digital compass and the serial number of your top/bottom masts.**
- You will receive an ID number which will be on all your equipment. Please apply the sticker to the required equipment. If in doubt view the instructions [here](#): and posted outside the measurement tent.
- In the interest of public health your boat will be taken through the measurement station by measurement people. You will **not be permitted to** pass through the inspection station but will retrieve your boat at the station exit.
- Your form will be returned to you when finally signed by the regatta measurer and you will then be able to complete the registration for the regatta.

If you have any questions, the laser class measurer will be happy to answer your queries. Do not hesitate to ask if you do not understand a rule.

Jean Luc Michon,

Regatta Measurer

Dun Laoghaire 05th August 2021
