Notice:

Day 4 Competitor's Briefing

Forecasts for today all suggest higher wind pressures than yesterday. There is a **strong possibility we will see winds restricting the use of spinnakers**, and competitors are reminded of SI 11.5, "*When Code Flag "W" is displayed with a sound before the warning signal, spinnakers shall not be hoisted during that race.*"

The OA has requested that if Code Flag W is flown when racing is finished for the day, competitors not fly spinnakers on the return to harbour.

Further, **one of the six forecast models** contains sustained winds and gusts **close to the level where all racing would have to be abandoned for the day.**

With the forecast direction, the RC will be anchoring close to Wednesday's location SW of Pearl Island.
