Description

Hello,

I am writing to you regarding a penalty on the water on 1.5.2025. I would like to appeal because I did not get a penalty. On the application racing rules of sailing is written that I got a penalty due to "Sculling below close-hauled course". I am 100% that I did not get a penalty. I was paying attention to everything and I did not hear and see anything and also I was not warned or informed about anything. The start started and I just drove normally. I did not do 720 because I did not even think or hear anything about penalty.

Today 3.5.2025 at the start I got a penalty and I did 720 because I did not know that I got a "penalty on 1.5.2025". Even if I got a penalty (which I did not) I know that after second penalty you need to instantly retire out from that race and not disturbing others.
