Question No: 08

Question For: Race Committee

Question:

It is possible for you to consider installing the buoy in the wind (buoy 4 - appendix 1 - sailing instructions). During the race of Tuesday, August 13th we arrived at the Leeward buoy at 3 boats in the middle of the class of "white sail" which were all up close, starboard and priority just next to our buoy downwind. Installing the lee buoy a little more to the right (looking upwind) would solve this problem.

Answer:

This is a good suggestion I am going to the race committee
