## Question for Officials

**Date: 2024-08-30**

**Question No: 03**

**Question For: Race Committee**

**Question:**

El Oro due to a timing error started 1 minute early  
then returned around the pin end start buoy to restart on a port hand course.  
on passing the the start boat we heard "you have started now"

can you verify if this was the cause of the DNF/DNS which appears to be recorded on our  
2nd race result.

could you please verify  
regards Kent King skipper El Oro

El Oro por error de cronometraje arrancó 1 minuto antes  
luego regresó alrededor de la boya de inicio del extremo del pin para reiniciar en un rumbo a babor.  
Al pasar el barco de salida escuchamos "ya has comenzado".

¿Puedes verificar si esta fue la causa del DNF/DNS que parece estar registrado en el resultado de nuestra segunda carrera?

¿podrías verificar?  
Saludos Kent King patrón El Oro

**Answer:**

Dear Kent King

To clarify your DNF of the second race, this is due to you started approximately 6 minutes before your start. That was the moment you crossed in front the Race Committee boat and I tried to help showing you the burgundy red flag which means your start was in sequence. I hope this clarifies the situation and sorry for this.
