

2025 Van Isle 360

Question for Officials

Date: 2025-06-06

Question No: 10

Question For: Technical Committee

Question:

Question on the YB Tracker. There is a message on the screen stating
"Assistance Alert
ALERT IN 5
Release to cancel"

No buttons are pressed and we are not able to access the menu. From reading the YB manual I do not see any way to fully power cycle the unit.

Any suggestions on how to get it operating again?

Thanks

Answer:

Our technical team is investigating remotely and will be down to help if required.
