

Les Voiles de Saint-Tropez 2025

Question for Officials

Date: 2025-10-04

Question No: 15

Question For: Race Committee

Question:

SI 6.2.2,
SI 12.1
SI 12.8

Today, the Modern fleet had a postponement before its warning signal and there were many boats in both the Modern and the Classic fleet that were positioned to the east of the line defined in Appendix 1. Even after the Warning signal for the Modern fleet - there remained many boats (not in the concerned start) that were east of the line defined in Appendix 1.

As we want to respect and abide by the Rules of LVdST - but we also are sailboat racers that love to check out the starting line and sail around on the race track before the start if it is permissible - we respectfully ask the following questions:

When does SI 6.2.2, SI 12.1 and SI 12.8 begin to apply?

Can a racing boat be in the Start area - West of the line defined in Appendix 1 before the first Warning Signal of the Modern boats?

Merci

Answer:

The RC will apply the rule as stated in SI 12.8.

For your info, the starting line is moored once and for all for the whole event : see SI 12.3.
