

Barcolana Maxi - Trofeo Portopiccolo

Question for Officials

Date: 2025-10-09

Question No: 01

Question For: Race Committee

Question:

in S.I. appendix B, coastal race, mark 1 coordinates do not match with any existing special use buoy. it might be a typo where the longitude reports 13 34.634 instead of 13 35.634? with such change the coordinates would instead match with a known special use Mark. could you please clarify?

thank you in advance,

Michele malandra

Answer:

Correct: in the appendix B the coordinates are different from the same buoy in appendix A. We are going to post an amendment. Thank you for your help.
