

6th Youth Centenary - Trofeo Faccenda

Question for Officials

Date: 2026-03-07

Question No: 02

Question For: Race Committee

Question:

After reviewing the Metasail tracking of the starts, I noticed that in Race 3 for both the Blue fleet and the Yellow fleet several boats appear very close to, or possibly over, the starting line at the starting signal, while no UFD or BFD were recorded.

Additionally, across all nine races sailed so far (three races with three fleets), no UFD or BFD penalties have been recorded.

I understand that GPS tracking may not always be perfectly accurate. However, in these two starts a relatively large group of boats appears beyond the starting line by a margin of several meters (in some cases more than approximately 5 meters), which suggests this may not simply be the inaccuracy of an individual tracker.

Could the Race Committee please clarify whether start line recordings (audio or video) are available for these starts, whether they have already been reviewed by the Race Committee, and if it would be possible to review them in order to better understand how the start line calls were made?

Thank you.

Answer:

da una verifica effettuata, risulta il tracker in posizione arretrata rispetto al albero della bandiera arancione.

Si conferma che le partenze sono state tutte regolari.

A check carried out revealed that the tracker was positioned aft of the orange flag mast. It is confirmed that all starts were regular.
