

29er

29er EuroCup Series

Question for Officials

Date: 2026-05-03

Question No: 01

Question For: Protest Committee

Question:

A scoring enquiry has been lodged, but since it is relevant to other competitors RC publishes it here as a question to PC:

According to the official NoR and SI, series scores (qualifying and final series) shall be scored separately. Meaning after only two races in the final series (we would need 4 in order for discard), there should be discard only in the qualifying series. If that would be corrected, the final results would look different and we would be scored higher.

Answer:

According to the NoR 13.4 and SI 17.4 Scoring:

Series Scores (applies separately to Qualifying and Final Series).

It means: complying to SI 17.4 with 7 qualifying races completed there should be one discard. With 2 final races completed there is no discard.

When there will be 4 races completed in the final series, there will be one discard in the final series. Qualifying series stays with one discard.
