

73° Loro Piana Giraglia

Question for Officials

Date: 2026-06-12

Question No: 10

Question For: Race Committee

Question:

The marks being used at this event being MarkSetBot marks, would the organisation be able to share the MarkSetBot Event ID with competitors?

We raised the same request last year and were told it was considered premature at the time.

We would like to renew it for the 2026 edition: having the mark positions in our navigation software helps us organise our navigation properly and adds a meaningful safety when racing.

The Event ID could be shared, for instance, once the marks are set and the course bearings are broadcast on VHF.

Thank you.

Answer:

See Notice n°1

Bearing will be given on vhf
