## Question for Officials

**Date: 2026-06-27**

---

**Question No: 04**

**Question For: Race Committee**

**Question:**

Question for Coleen Cooke regarding Spray protest decision. As rule 8.1 states that the restricted area includes tangent lines from moored vessel. GPS evidence was presented for Dawn Patrol's track. Evidence was agreed upon parties as to approximate location of said moored boat. This was accepted by the committee, so how is the decision unable to determine the distance as committed was using a measuring app? Also, was the tangent line considered to determine if Dawn Patrol sailed into this area using their tracking data which was also evidence presented? This information and application of the rule was not addressed in the decision. Thank you.
