

Eurilca Master European Champions Question for Officials

Date: 2021-07-27

Question No: 02

Question For: Race Committee

Question:

Dear Sir/Madam of the comité,

I hope you had a good day on the water.

We had a good day but unfortunately the marks didn't.

First the startline was much to long.

We just saw that the gm and ggm race has been cancelled in the results.

How can the app and the standard have a score if the had the same course.

It is really really strange.

In my opinion if you want to take us and yourself seriously you should cancel all result.

Maybe arrange better marks. Go back to the old system if the wind is this much.

I really hope to hear from you and tomorrow with the meeting i will definitely ask questions about this situation.

I have spoken a lot of sailors from a lot of countries and they all thought the same.

On a day like this we could have had 4 great races.

Hope to hear from you and have a wonderful evening.

With kind regards,

Floris van Ede
