**Question No: 02**

**Question For: Race Committee**

**Question:**

it's more of a comment than question. One. We try to radio that we are leaving the race but no one answered back so we came on shore and packed our boats and left. We tried to look into the office on short. There was no one. So we notified the gate keeper and office of the marina. Two. The racing committee should've manage the passing boats and fairies better. with wi d condition with 5 knots. we were stopped 4 times and went down to 0 knots by passing motorboat traffic. other than that. thank you for your effort and organization.
