

Tre Golfi Sailing Week 2022

Question for Officials

Date: 2022-05-13

Question No: 02

Question For: Race Committee

Question:

Question regarding the Tre Golfi Race as part of the ORC Mediterranean Championship.

Sailing Instructions 18.6 of the Mediterranean Championship states that the windward/leeward races will be scored using PCS and constructed course method.

However, there is no mention of how the offshore race will be scored.

Is it correct to assume that the offshore race will be scored according to 16.1 (a) of the Tre Golfi Sailing Instructions? Which states that "all ORC results will be calculated using Time on Distance"?

If so, what Time on Distance number will be used? All-purpose time on distance? Or GPH?

Thank you!

Answer:

Per the preamble in the ORC MED-CNT Sailing Instructions, those SIs are for "the windward-leeward (and coastal races as per SI 6.3) scheduled for May 19-21, 2022." Therefore, SI 18.6 only specifies how corrected times will be calculated for inshore races.

All instructions regarding the long-distance race which follows the same course as the Tre Golfi Offshore Race are outlined in the Tre Golfi Sailing Instructions and scoring will be in accordance with item 16.1.a. At this time, no scoring option has been chosen by the RC.
