7. Description Of Incident

8. Damage Or Injury

I was in 8th position on the last leg to the finish in race 7 today when my mast snapped. meaning I could not cross the finish line.

I am certain that I would have continued to cross the line in 8th from where I was.

In the process of building a new mast up for tomorrow we have noticed that the mast wasn't sleeved. part of Selden's spec for a mast so it was the fault of Selden providing a sub standard mast that caused it to fail.
