

Palma de Mallorca, 22 November 2023

Dear coaches and team managers:

Welcome to the 72 Trofeo Ciutat de Palma.

The Regatta Office will be Virtual, as well as the Official Notice Board. You can find all the information in the following link: www.trofeociutatdepalma.com

For all registration documents, please send them to rlozano@rcnp.es. Likewise, the regatta office will be open in case you have any incident, and they will be pleased to help you.

We remind all technicians that they must register in advance on the website of the event with all the details of the boat and that they must send to rlozano@rcnp.es the required documentation (Third Party Liability Insurance, Certificate of Navigability, Skipper's Certificate and Technician's License). We remind you that if you go out in inflatable boats you must pick up a flag at the Race Office and leave a deposit that will be returned to you when you return it. The coaches meeting will take place on the 6th of December at 17:00 in sailors tent.

Please check the location of the participating boats (teams) on the map that you can find on the official website of the event. Remember not to leave the vehicles open and with the material in sight. It is compulsory to collect a parking card at reception, leaving your number plate and contact number.

The control of signatures will be carried out by the coach or team leader in the sailors' tent. Group ribbons will also be collected exclusively by the coach at the regatta office.

A consent form is also available on the official website of the event, so that coaches can fill it in and send it to rlozano@rcnp.es. One document per team is sufficient.

Please find attached the program of social events (also available on the official website of the regatta). Be sure to check the program of social events, there are plenty of activities for parents, family members and participants.

Finally, we ask for your cooperation to comply with the indications of the RCNP staff.

Thank you very much and have a happy regatta!

The RCNP team
