**Other Comment:**

## 7. Description Of Incident

I needed to gybe around the committee boat but also close to the boat as there was no wind when you went much further than the boat, but within 50m of the boat, there was enough wind to gybe.

There were 3 ribs stationed exactly where I needed to gybe.

If I had gybed before them I would not have cleared the back of the committee boat and by having to go past them, there was so little wind that I could not even turn.

Meaning I dropped off the foils and was very late for the start.

The ribs should have been outside of 100m of the start line and they were substantially closer than that.

This hugely affected my race.
