Other Comment: Na

7. Description Of Incident

During race 8 the wind died and there were shifts of up to 50-60 degrees. On the first downwind we were around 10th around the windward mark and got stranded in a area of no wind while boats around us had random gusts from different directions. Half way down the run the race committee decided to finish the race at the bottom mark even though there looked like there was good wind coming. We lost 15 boats on the downwind because of the conditions.

8. Damage Or Injury
