7. Description Of Incident

My sailors from group Yellow and Blue missed the start because it was impossible for them to reach it in time. We started getting to the slipway as soon as the Delta flag was displayed, but it took a lot of time to launch, because there was a huge crowd trying to get on the water at the same time. As soon as they managed to get on the water I immediately towed them to the starting area, but the starting procedure of the blue fleet was already in progress. I would like to request redress on behalf of them, because their results got significantly worse through no fault of their own. The RC should either provide better launching possibilities or give more time to get to the starting area.

Yellow fleet hun 372 Virag Botond, hun 876 Molnar Alex, blue fleet hun 377 Huszar Luca
