7. Description Of Incident

8. Damage Or Injury

Damage on the main hull. A small damage on the underside on the back of the hull and a big crack on the hull joint. We had a huge amount of water inside the hull in the bow. We first saw the damage when we lifted the Diam out of the water at the end of the Bari event at 15.30. Diam representative confirmed it had to happen before the Bari event and that it was not the teams fault
