7. Description Of Incident

Around 50s before the starting signal we were doing a double tack to cover our spot, it was pretty windy and we were tacking back to starboard to avoid the ITA boat above us asap. When we were in the tack she accelerated and came reaching towards us and crashed. She did not try to avoid the contact but tried to protect her starting space only.

8. Damage Or Injury

Significant hole on the right side of the boat towards the bow
