7. Description Of Incident

We are around 10-12 position in first downwind and we are starboard and FRA 6712 is port. We were fast and we yelled starboard to make them notice us but they headed up too late and their bowsprit hit my crew under the shoulder and made him fall in the water, hurting him with the contact.

8. Damage Or Injury

My crew was hurt by their bowsprit and we couldn't finish the race because his back hurt badly. Then we wanted to try to continue the other races although he felt bad, but couldn't strap properly, so this ruined our results.
