7. Description Of Incident

on the downwind, i gybed to starboard. the protestee was on my right. there was enough space for him to gybe or point to avoid me but he did not. he instead beared away which caused me to point up very high to avoid contact to the best i can. because i pointed up so much, i ended up capsizing and losing a lot of positions (about 7 positions)

This is very unfair for me as i had to deal with the consequence of someone's severe mistake. it costed me the race and i performed very badly, finishing about 29. With the protest I would like to request for redress as this is causing me severe loss in the qualifiers for the overseas events (Asian games, Worlds, Ilca asians) As I would have done better without this consequence and I could end up losing to my competitors. I hope to be able to get my original position at mark 2 or an average of my races before race 10. Thank you!

8. Damage Or Injury
