## 7. Description Of Incident

when rounding the right Gate (coming from downwind). We were approaching the mark overlapped with SVK 2363 on the inside position and ITA 2622 overlapped with us on the inside position. SVK 2363 didn't give us space to round the mark and especially providing mark room to ITA 2622. We had to go till upwind to avoid boat contact, because of that ITA 2622 also had to go up till upwind to avoid boat contact. After that we had to tack and jibe again to round the mark. (except SVK 2363)
