## 7. Description Of Incident

Valentine rounded the top mark before Maxime, who rounded just before me. After we rounded, I went at a lower angle than the others. After a short time on starboard, I was below maxime so he could not gybe onto port. Valentine was further ahead and managed to gybe and clear us. Maxime then looked behind to check if he was clear, at which point I said "no Maxime" to indicate he did not have space. Maxime gybed anyway, and I had to lift my 23m to avoid a collision which slowed me down.

## 8. Damage Or Injury

None.
