7. Description Of Incident

We were on the downwind porttack just after the first jibe ,he was coming from back up wind I shout out one time "hooo" just for let him know I'm here, and to warn him of my position. He came closer and I shout out again and 2scd later he was pumping with his wing on my face 2 time . So I had to go more downwind to avoid the big contact and loose lot of speed , so I touch the water with my board . I saw and heard him confirming to the other riders after the race that he touched me with his wing.

8. Damage Or Injury

Any because just his wing touch my back 2 times
