7. Description Of Incident

I was behind Sailor 56, and I gave her space and took my kite into the middle, because she suddenly put her kite up and then when both kites were in the middle she directly put the kite into mine and tangled me. I couldn't do anything because it was so sudden and I gave her the space but she put the kite directly into mine, so I had no chance to finish the race and got a dcf (did cause tangle), but actually she did cause the tangle. So it would be fair to get an redress, because I haven't done a mistake and did not break rule 11, because I let her the space but she put the kite into mine.
