7. Description Of Incident

Capsized I lost my dagger board due to the knot coming undone. After multiple attempts to reinsert I lost grip of the dagger board. At this point I asked the safety boat to grab my dagger board.

As I was righting the boat the safety boat came up to hand me my dagger board.

The manover was reckless as I was only half righted and so the nose of the rib collided with my deck at great force making a large hole. Other forces also made cracks and holes within the cockpit of my boat.

8. Damage Or Injury
