7. Description Of Incident

Sailing downwind. I was clear ahead of 212907 and was catching on 098. 212907 was clear behind from the windward mark, at the last moment of certainty which was approximately 10/15 seconds before I was clear in front, 212907 came from behind and did an upturn without giving me time and opportunity to keep clear, if I had also done an upturn I would have collided into the rear of 098 and I was avoiding contact with 098, 212907 could have avoided a collision but collided behind my body so the rear 1/4 as I was sat at the back of the boat

8. Damage Or Injury

None
