7. Description Of Incident

I have been scored UFD and have asked a scoring review. The RC very kindly went through it and showed us a video from the pin end boat that was the one calling me over. The video is not conclusive at all that I was over as you couldn't see the orange flag of the RC because it was covered by other boats. In the video there is clearly no count down of the time sequence from the pin end boat nor from the radio of the RC, even though you can hear their voices. For me this states clearly that the pin end boat could have misjudged the line and the time sequence as from their video you can hear calling my number but not see any visual signal (the flag) nor hear any sound (the horn or countdown) therefore based on their video anyone could have been over as you don't know at all when the GO was.

8. Damage Or Injury

No damage
