II. General Information

1. Introduction to the Games

1.1 Overview

- Name of the Games: 7th CISM Military World Games (7th CWG)
- Duration of the Games: October 18 – October 27, 2019
- Host City: Wuhan, Hubei Province, P. R. C.

1.2 Emblem

Named as the “Bond of Peace and Friendship”, the emblem of the 7th CWG is made up of five – pointed stars, a colorful ribbon, the figure “7” and a peace dove. It is designed to reflect the quality of servicemen

and armed forces as well as Chinese traditional culture and the local characteristics of Wuhan. Furthermore, it means to clearly deliver the message of “peaceful development” of the 7th CWG.

1.3 Mascot

Bingbing, the mascot, whose name means “soldier” in Chinese, is inspired by Chinese sturgeon, a rare fish species found in the Yangtze River basin. The lively, adorable, tenacious and healthy *Bingbing* represents the hospitable hosts and their strong desire to meet all participating soldier athletes in Wuhan, China, which will witness “Military Glory, World Peace.”

2. Host City – Wuhan

Abbreviated as Han and located in central China, Wuhan is a megalopolis along the middle reaches of the Yangtze River and the capital city of Hubei Province. It is a major industrial, scientific, educational and technological base and transport hub of the country. With a land area of 8,569.15 square kilometers and 11.08 million permanent residents, it has a GRP of USD 221.39 billion in 2018.

At latitude $29^{\circ} 58' - 31^{\circ} 22' N$ and longitude $113^{\circ} 41' - 115^{\circ} 05' E$, Wuhan enjoys a northern subtropical monsoon climate characterized by abundant year – round precipitation and warm temperature, with rainfall, torridity and sunshine going hand in hand. Wuhan has four distinct seasons, featuring cold winter and hot summer, while the annual average temperatures vary from $15.8^{\circ} C$ to $17.5^{\circ} C$ and the annual frost – free period usually lasts for 211 to 272 days. The annual sunshine hours of the city are between 1,810 and 2,100 hours, and the annual solar radiation is between 104 and 113 kcal/cm². The city has an annual precipitation of between 1,150 and 1,450 mm, with most rainfall occurring between June and August, accounting for about 40% of the annual precipitation.

Wuhan, a noted river city in China, is where the Yangtze River – the longest in China – and its biggest tributary the Han River meet and therefore give birth to the magnificent scene of three towns standing upright on three sides, namely Wuchang, Hankou and Hanyang. Also well – known as a City of Hundred Lakes, Wuhan's urban water area accounts for one – fourth of its total surface area. Dawn redwood is selected as the tree of Wuhan and plum blossom as its city flower.

With 3,500 years of history, Wuhan is a famous historical and cultural

city of China and the birthplace of Chu (1,115 – 223 B. C.) culture. Chu culture, a regional culture established by the ancient people of the State of Chu, belonged to the southern branch of the Chinese civilization, featuring bronze smelting, silk weaving, embroidery, literature, art, music and dancing. Its profound influence is still seen in local operas such as Han and Chu operas and folk vocal – art forms such as Hubei storytelling, Hubei drum ballad, and Hubei ditty and folk – tale chanting. Wuhan is also the place of the Wuchang Uprising, which triggered the Xinhai Revolution (1911) and ended the last emperor’s reign of the Qing Dynasty. As a renowned city for its abundant resources in scientific research and higher education in China, Wuhan has the third largest number of higher education institutions in the country. Furthermore, the city occupies a pivotal position in the country in terms of new and high – tech, automobile and commercial and trade circulation industries.

Wuhan is also a center of China’s high – speed railways and the average travel time to other major cities in China, such as Beijing, Shanghai, Chongqing, Shenzhen and Hong Kong, is within five hours. With 63 international and domestic air routes, Wuhan is the aviation hub and the only city in central China to have direct flights to all five continents. The city has an extensive urban transport network with a total mileage of 334 kilometers and 225 operating stations.

As a key tourism city in central China, Wuhan is an important node for the development of the “ Belt – and – Road Initiative. ” It is home to three national top scenic spots, namely Yellow Crane Tower, East Lake Ecological Tourism and Scenic Zone and Mulan Cultural and Ecological Tourism Zone. The city is also famed for its plum and cherry blossoms, lotus and azalea, and

its exquisite urban tourism and cultural offerings are all must – visit scenic spots, including Hankou Recreational Waterfront Park, East Lake Greenway, Wuhan Garden Expo Park, Han Show Theatre and Happy Valley Wuhan.

3. Accreditation

3.1 Accreditation Cards for the 7th CWG

The accreditation cards of the 7th CWG are the official identification documents issued by SUMOC that authorize card holders with access to specific competition venues and zones.

3.2 Handling of Theft, Loss and Damage of Accreditation Cards

In the case of theft, loss and damage of accreditation cards, the cardholders concerned shall immediately report to their missions and visit MAV ASC. Upon presentation of valid personal passports and the *Declaration of Stolen, Lost and Damaged Accreditation Cards*, the original accreditation card will be invalidated and new one will be issued to holders on site.

If the card is damaged, the cardholder shall return it to MAV ASC for invalidation and apply for a new one.

The above – stated formalities should be gone through by cardholders themselves.

4. Military Athletes' Village (MAV)
