7. Description Of Incident

We were 10 boat length from the right downwind mark, already from that moment we were overlapped and I started to inform Algeria 190611 that he would have to give me space at the halfway point, when we arrived in the three lengths we were overlapped and Algeria 190611 did not give me the space to enter and make my halfway point. He luffed and created a collision which I was unable to avoid responding to the luff. After the contact I raised my arm and shouted Protest Algeria 190611
