

Sailor Arrival Information

Parking

Where possible please share lifts to and from the venue as parking is limited and we are aiming for the event to be as sustainable as possible.

If you need to travel by vehicle, then please use Fort Cumberland Car park. This is free and will be marshalled to maximise capacity but get there early to ensure a space! This car park is roughly a 5 minute walk to the event site.

There is parking along the seafront but this will be busy and you will need to pay for a space.

Site access

Access to the site will be from 15th September. Please see the site plan below showing where the storage tent will be.

When dropping off equipment (and collecting equipment at the end of the event) please use the old swimming pool car park (indicated below). Once you have unloaded your equipment please move your car to the Fort Cumberland car park as there are limited spaces here.

The Opening Ceremony

Please join us for the opening ceremony on Sunday 17th September, taking place at The Queens Hotel Portsmouth, Clarence Parade, Southsea, Portsmouth, PO5 3LJ from 18.30-20.30.

Sustainability

The water is our playground – that’s why the Formula Kite European Championships will be promoting all that is green with a range of sustainable actions and educational initiatives. You can find out more by visiting the event [website](#) or by speaking to a member of The Green Team at the event.

To support our sustainability work, we are measuring the associated carbon footprint of the event. **Please help us by completing this short travel survey [here](#).**

Top Tips for Being Green:

- World Sailing Racing Rule 47 applies – do not litter on the water or shoreside, please use the bins provided.

- Follow our water only washdown of boards and equipment at the event to help protect our natural environment.
- Consider how you travel, choosing greener options where possible. You can find further travel information on the [FAQ page](#), we recommend downloading the Breeze UK travel app, and making use of the hire bicycles and scooters.
- Help us reduce single use plastic by bringing your own water bottle to reuse.
- Please ensure that all equipment that arrives and leaves the event is clean and free from invasive species, following the [Check, Clean, Dry](#) method.

BEACH CLEAN!

Join the Formula Kite event team and [The Green Blue](#) for a beach clean. Help support our event sustainability goals of achieving Platinum level Clean Regattas from Sailors of the Sea. The beach clean has been registered with Marine Conservation Society, and we will be recording data on what litter is collected.

The details:

- Wednesday 13th September
- 1330-1530
- Island View Terrace, Whale Island Way
- For more information and to sign up email environment@rya.org.uk or click [here](#).
