7. Description Of Incident

Merlin M2 lost her mast near the windward mark. A crew member was injured and required transport ashore. Merlin's mast, sails, and rigging were in the water so she was stuck and she requested assistance from the Sarah. I informed the fleet that Sarah was leaving station and that they should take their own times. I motored up to Merlin, we transferred the injured sailor, and we went in to port where the injured person was transported to hospital by ambulance.

The Cat Came Back, Trax, and Escape stopped racing to assist. As the race officer I am requesting redress on their behalf.

8. Damage Or Injury
