7. Description Of Incident

As we (8107) entered the 3 boat lengths towards the p3 mark on starboard tack, they (8730) were on the outside of us. We then giped and 1 boat length after the p3 mark heading towards the finish, they hit us in the back of the boat making us bear away as our rudder got tangled in their spinnaker. This made us gibe. Once they were free they pushed off of us towards the finish as about 8 boats passed us.
