Scoring Inquiry:

We crossed the line in 15th and have had our result changed to 17th.

I believe this change has occurred because of the redress given, however this redress has been incorrectly applied and should not affect the position we crossed the line for us and many other teams. Further I find it hard to believe that it is fair to give the redress boats a score that relates to an approximate position within a race. Normally redress scoring is based on a teams average scores in multiple races.
