Scoring Inquiry:

On the third race of the first day I (dimaggio 8513) i was crossing the finish line in a close group with matador (10129) and a good bit ahead of hot rocks (8845) who was ahead of azure (9080). I dont know if there were any other boats between hot rocks and azure. And I know this beacause they are in our local club and i was keeping an eye on them. The scoring shows that azure in 13th place in the third race when she was behind monty and I who had been finished as 15th and 16th place. Kyla has said that she Definatly saw us in front and said she could witness.

Witnesses:

Kyla Brezan Helm Of azure 9080

Response:

Corrected Score: move 9080 who was incorrectly enter as 13 to 17

Yes you are correct, I have changed the order to reflect the results correctly. 9080 was incorrectly entered as 13th when in fact 9080 was 17th
