Scoring Inquiry:

We completed one lap of race 2, sailed through the finish line in 2nd after sail number 1200, and hailed the race committee that we be finished on course as there was no wind. After repeated hailing, we both decided to sail in. The course was shortened to be finished at the windward mark, but to our knowledge none of our fleet made it to the windward mark and were all finished on course. We request our finish positions to be honored.

Witnesses:

1200
