Scoring Inquiry:

Segun comprobamos durante la regata del día de hoy, la baliza de malgrats debería de haber estado en las coordenadas 39 29.565 N/ 002 26.685E y estaba en las coordenadas 39 29.448 N /02 27,052E, unas 0.31 x 2 millas más corta y queríamos corroborar que se ha tenido en cuenta para el cálculo de los tiempos compensados

Response:

We can confirm that the mentioned mark was laid in a different position compared with the position reported on the notice n.10 however, the corrected times were calculated using a ToT factor and therefore the calculation it is not affected by the length of the course

We remain at your disposal to further discuss on this matter
