Request No.: 14

Course:

Race No.: 6

Posted Score: DNS

Competitor: GER 850 - Drömel - Heinrich Willm Hirthe

Scoring Inquiry:

I startet and finished reguarely in the blue group.

You counted me as DNS because an official has seen me starting in the yellow group. If this had been true, i would have been as fast as Stefan de Vries? This doesn't fits with the results in my other races...

Please think about if this could be plausible.

Witnesses:

Andreas Pich GER 7

Response:

The score is confirmed. If you want to talk with the jury official that saw you he is available after 11.00
