Scoring Inquiry:

In the 3rd race of the blue fleet the RC had put me as if i was UFD. I know that I was not UFD on this race because I had always stayed in the line until go and some evidence that I have to be able to support this is that these 5 boats, USA 11718, USA 17412, PUR 4080, USA 22750, and USA 2415 where very close to me and some where even right next to me but not marked as UFD. I know that if I was marked as UFD than so should've been these 5 other boats, but I believe that non of us where UFD. Please review this very carefully.

Response Title:

Start of race 3blue under U flag PUR1408 was identified by both the pin boat and the signal boat as being on course side in the last minute before the start and was subsequently scored UFD.
