Scoring Inquiry:

The mark was shifted midway during the first upwind which is not allowed and affected me badly as I went to the left as the mark was higher up the course after that then when the mark was shifted I lost many positions and they saw me that I was 12th place before the mark had been moved and I believe that I believe that score and I have proven that I have the ability to do so as my other races were 6th and 11th
