Scoring Inquiry:

During the start procedure of Race 6, Blue Fleet, under the U Flag rule, the Race Committee scored me as UFD. I consider this an identification error that negatively impacts my score, despite no fault on my part.

At the start signal, I was clearly behind the starting line (on the dam-start side) and well behind, a position that can be corroborated by the official event tracking system data, which shows that I did not cross the line prematurely ('flying') and that there were other competitors ahead of me who were on or near the line.

I request that the identification made by the lane viewer be reviewed, the tracking data be compared, and consequently, that my score corresponding to my actual arrival in the Blue Fleet Race 6 be reinstated. Thank you.

Response:

COL 35 sailed on port tack on the course side along the starting line during the last minute before her starting signal. While doing so, she was inside the triangle formed by the end of the starting line during the last minute before the starting signal, and thereby broke RRS 30.3 (even if COL 35 was later behind the starting line at the starting signal). Therefore, the score as UFD are correct and stands.
