Scoring Inquiry:

My elapsed time was 2:43:10 and my corrected time, for some reason, went UP to 2:43:25. Using TOD my corrected time should have been ($15\text{nm} \times 24 = 360\text{sec}$ or 6 minutes) 2:37:10. This appears to be the same for Seawolf which is rated similarly. Other boats all their times went down from their elapsed time but also not by very much for a 15 mil course, so since they are foing down, it seems you aren't using TOT.
